### Turn your colouring sheets into a picture memory game!

#### How to Make the Game

1. Print out two copies of each picture.
2. Colour them the same way, then glue the picture onto black construction paper. These will make up your game cards.
3. Flip the cards upside down and scramble them. Then, line up the scrambled cards in 3 rows and 4 columns. This will make up your game board.
4. Now you're ready to play!

#### How to Play:

Each turn, choose and flip over two cards. If they match, remove the cards from the board, leaving empty spaces in their place.

If the cards are different, return them to their original spots on the board, face down. Flip over another two cards and repeat these steps until you make a match. Try to remember where the pictures are located so that you can make matches, quickly!

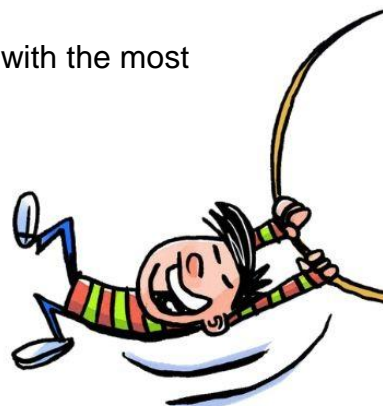

The game is won once you've cleared the board.

If you are playing with a friend, mark each match as one point. The player with the most points wins.

**Happy Colouring!**
